

Publications: Kimran (Miller) Buckholz

Miller, K.E., Laszlo, K. & Suomi, S.J. 2008. Why do captive tufted capuchins (*Cebus apella*) urine wash? *American Journal of Primatology*, 70(2):119-126.

Urine washing research featured: news@nature.com. 7 September 2007, doi:10.1038/news070903-18.

Franklin, S., Miller, K.E., Baker, A.J. & Dietz, J.M. 2007. Do cavity-nesting primates reduce scent marking before retirement to avoid attracting predators to sleeping sites? *American Journal of Primatology*, 69(3):255-266.

Miller, K.E., Bales, K.L., Ramos, J.H. & Dietz, J.M. 2006. Energy intake, energy expenditure and reproductive costs of female wild golden lion tamarins (*L. rosalia*). *American Journal of Primatology*, 68(11):1037-1053.

Miller, K.E. and Laszlo, K. 2006. Using recycled barrel swings vs. primahedrons in primate enclosures. *Laboratory Primate Newsletter*, 45(3):12.

Miller, K.E. & Dietz, J.M. 2006. The effects of individual and group characteristics on feeding behaviors in wild *Leontopithecus rosalia*. *International Journal of Primatology*, 27(3):911-939.

Miller, K.E. & Dietz, J.M. 2004. Fruit yield, not DBH or fruit crown volume, correlates with time spent feeding on fruits by wild *Leontopithecus rosalia*. *International Journal of Primatology*, 25(1):27-39.

Miller, K.E., Laszlo, K. & Dietz, J.M. 2003. The role of scent marking in the social communication of wild golden lion tamarins (*Leontopithecus rosalia*). *Animal Behaviour*, 65(4):795-803.

Kierulff, M.C., Raboy, B.E., Procópio de Oliveira, P., Miller, K.E., Passos, F.C. & Prado, F. 2002. Behavioral ecology of lion tamarins, In: *Lion Tamarins: Biology and Conservation*, D.G. Kleiman & A.B. Rylands, Eds. Washington: Smithsonian Institution Press. p. 157-187.

Miller, K. 2002. Olfactory communication, feeding behaviors and energy budgets of wild golden lion tamarins (*Leontopithecus rosalia*). Dissertation. College Park (MD), University of Maryland. 134 p.

Bales, K., Baker, A., Dietz, J., Miller, K. & Tardif, S. 2000. Effects of helpers upon infants and parents in callitrichids, *Folia Primatologica*, 71:27-38.

Gouzoules, H., Gouzoules, S. & Miller, K. 1996. Skeptical responding in rhesus monkeys (*Macaca mulatta*). *International Journal of Primatology*, 17:549-568.
