

ACCOUNTING

Wartburg's accounting major is offered within the Department of Business Administration and Economics. In addition to accounting courses, the program also includes other departmental courses that provide theoretical understanding of business and additional practical knowledge essential to the success of a practicing accountant. Wartburg is committed to preparing accountants who can adapt to a broad range of accounting circumstances and to remain flexible in a rapidly changing technical environment; elective courses in computer science may be selected to enhance skills in computer technology. The Wartburg Plan of general education, which is integrated into this major, provides essential knowledge and skills necessary for the informed citizen to function effectively in modern society
