

Academic Policies and Procedures

Students are responsible for compliance with Wartburg's academic policies and procedures. The Registrar exercises all possible care in checking students' records for graduation; however, it is the sole responsibility of the student to fulfill all requirements for a degree.

Catalog Requirements

Students may graduate under the catalog requirements for the year in which they are first enrolled as degree-seeking, provided that they complete graduation requirements within a continuous period of no more than eight years. Students who register as degree-seeking, but do not complete requirements within eight years, will be expected to fulfill requirements in effect at the start of the ninth academic year. Students should keep a copy of the catalog under which they enter or are readmitted.

Course Credit

The unit of academic credit is the course credit.

The standard load for full-time students is 4.0 course credits Fall Term, 4.0 course credits Winter Term, and 1.0 course credit May Term.

Full-time student status is a minimum of 3.0 course credits for each Fall and Winter Term. To fulfill graduation requirements, a full-time student is required to complete a minimum of 1.0 course credit in May Term for each year of classification. Overload fees are assessed for credits beyond the 4.5 maximum in Fall Term and Winter Term and the 1.25 maximum in May Term. To enroll in more than 5.0 course credits in either Fall Term or Winter Term and 1.25 course credits in May Term, students must complete a variance form to request clearance by the Vice President for Enrollment Management.

Music majors and Meistersinger Scholarship recipients who enroll in Applied Music: Private Instruction (MU 140, 240, 340; MU 150, 250, 350; MU 160, 260, 360; MU 170, 270, 370; MU 180, 280, 380; or MU 190, 290, 390) and whose enrollment for a specific term is greater than 4.5 course credits may receive a refund of the tuition overload charge up to .5 course credits (based on the course credit of applied lessons).

Equivalencies between course credits and semester hours are:
¼ course credit = 1 semester hour;
½ course credit = 2 semester hours;
1 course credit = 3½ semester hours.

Class

Student classification is based upon cumulative course credits earned: first-year, 0 - 6.75; second-year, 7 - 15.75; third-year, 16 - 25.75; fourth-year, 26 or more. Classification is calculated at the end of Fall Term, Winter/May Term, and Summer Term II.

Graduation

To qualify for graduation from Wartburg, students must:

1. Earn 36 course credits, including four May Term course credits. Transfer students must complete one May Term course credit for each year of classification at Wartburg.
2. Complete the Wartburg Plan of Essential Education for the degree(s) for which they are candidates.
3. Achieve a minimum grade point average of 2.0 in all courses comprising each major and minor.
4. Achieve a minimum grade point average of 2.0 in all courses taken at Wartburg.
5. Take at least seven of the last nine course credits from Wartburg offerings. CLEP and Challenge exams are not considered Wartburg offerings.

Students who wish to earn two bachelor's degrees must complete the Wartburg Plan of Essential Education for each degree and a minimum of 45 course credits.

Students who hold a bachelor's degree from another institution and wish to earn a second degree in a different major from Wartburg College must meet all graduation requirements and must earn a minimum of nine course credits at Wartburg.

Students who complete a three-year preprofessional curriculum at Wartburg and transfer to a professional school may apply for a bachelor's degree at Wartburg when graduation requirements have been met and when the professional school's dean certifies that the necessary quality and quantity of course credits have been earned. In addition, students must have completed all Wartburg Plan of Essential Education requirements at Wartburg College and must have completed a minimum of 27 course credits at Wartburg. Students who wish to make application for this arrangement must seek approval from the Registrar before leaving Wartburg College.

Wartburg Plan of Essential Education

As a basis of a Wartburg College education, the Wartburg Plan of Essential Education is designed to create liberally educated, ethically minded citizens for the 21st century by:

- Helping students develop critical thinking and communication skills.
- Helping students see connections among academic disciplines.
- Helping students integrate faith with learning.
- Helping students develop literacies in information literacy, diversity, speaking, writing, and ethics.

The Wartburg Plan emphasizes thinking strategies, reasoning skills, fundamental literacies, faith and reflection, health and wellness, and a capstone course.

Thinking Strategies: The Three Levels

On the introductory level, IS (Inquiry Studies) courses help students to develop critical inquiry and communication skills as they take responsibility for their Wartburg education and actions within the context of becoming liberally educated persons and lifelong learners. These courses teach students to recognize challenges and opportunities of living in a world characterized by a complex array of cultures and subcultures and to connect this widened view of the world to liberal learning. Drawing from a variety of disciplines in the humanities/fine arts, social sciences, and natural sciences, IS courses emphasize broad processes of inquiry and articulation.

On the second level, IC (Interconnected) courses introduce students to the interdependence of academic disciplines as well as to their unique contributions to human understanding of themes, issues, and fields of knowledge. These courses allow students to experience varied approaches, processes, and vocabularies, thus exposing them to new and useful insights.

On the third level, ID (Interdisciplinary Studies) courses require students to synthesize knowledge and pay attention to the assumptions and methods of specific disciplines as they examine a major ethical, cultural, or intellectual phenomenon or problem. Students draw upon work in their major(s) and experiences in IS and IC courses as they integrate concepts and skills from the humanities/fine arts, social sciences, and natural sciences. This integration helps students gain a more thorough understanding of complex social, historical, or philosophical issues.

Reasoning

The Wartburg Plan focuses on verbal reasoning (writing and speech), mathematical reasoning, and scientific reasoning. Wartburg believes that competency in these three areas is essential to liberal learning, which in turn produces good citizenship and leads to career success.

Literacy

The Wartburg Plan emphasizes literacies required of a liberally educated person. Special courses integrate information literacy; diversity across the curriculum, including foreign language; oral communication across the curriculum; and writing across the curriculum. These courses reinforce skills introduced at the IS level as well as in composition, scientific reasoning, and oral communication courses.

Faith and Reflection

The Wartburg Plan requires two courses in faith and reflection. As a college of the Evangelical Lutheran Church in America,

Wartburg takes seriously its duty to foster spiritual as well as intellectual growth and to help students integrate the two. Students take two religion/philosophy courses, one during the first two years and one during years three and four. The first course offers in-depth study of the Biblical tradition. The second course, chosen from several options, considers how Christian traditions or the Western philosophical traditions have addressed ultimate questions of being and value in human experience.

Health and Wellness

The Wartburg Plan includes an emphasis on health and wellness to nurture body as well as mind and spirit. A half-term course required of all students promotes life-affirming choices regarding physical health.

The Capstone

As the final component of the Wartburg Plan, the capstone is the only Essential Education course specifically included in the student's major. It completes the process of integration as students synthesize their learning to address issues in their major.

ESSENTIAL EDUCATION REQUIREMENTS BY DEGREE

Candidates for the **BACHELOR OF ARTS (B.A.)** degree take courses that fulfill the Wartburg Plan of Essential Education (see chart on page 37) and courses that complete a major as listed by each academic department.

Candidates for the **BACHELOR OF MUSIC (B.M.)** degree take courses that complete a music major and all but three courses required to fulfill the Wartburg Plan of Essential Education (see chart on page 38).

Candidates for the **BACHELOR OF MUSIC EDUCATION (B.M.E.)** degree take courses that complete a music education major and all but three courses required to fulfill the Wartburg Plan of Essential Education (see chart on page 39).

Candidates for the **BACHELOR OF MUSIC EDUCATION/ MUSIC THERAPY (B.M.E.)** degree take courses that complete a music education major and all but three courses required to fulfill the Wartburg Plan of Essential Education (see chart on page 40).

Candidates for the **BACHELOR OF APPLIED ARTS (B.A.A.)** or **BACHELOR OF APPLIED SCIENCE (B.A.S.)** degree take courses to fulfill the Wartburg Plan of Essential Education (see chart on page 41) EXCEPT IS 101, IS 201, and one Faith and Reflection course. The Associate degree substitutes for the major.

Bachelor of Arts

Scientific Reasoning

One course credit required

BI 117 Environmental Biology 1
BI 152 Biology II: Phylogeny, Structure, and Function 1
CH 113 Principles of Chemistry I 1
CH 130 Hot Topics in Science and Medicine 1
PHY 101 General Physics I 1
PHY 130 Physics of Ordinary Things 1
PHY 150 Science for Society 1
PHY 204 Classical Physics II 1
SCI 151 Abuse in Science 1
SCI 152 Episodes in the History of Science 1

Verbal Reasoning

1.5 course credits required

CA 112 Oral Communication 0.5
EN 112 Intermediate Composition 1
or
EN 152 Introduction to Writing Studies 1
(for writing majors only)

Writing-Intensive Courses

Two course credits required in third and fourth years (excluding IS 101 and IS 201)

Some requirements may be met by special topics; see online schedule.

Major, Minor

Students enrolled as degree-seeking students must declare a major by completing the appropriate form, available in the Registrar's Office, and obtaining the required signatures. This declaration may occur any time after matriculation but must be completed by the time students have accumulated 13 course credits (the end of the third term for most students). Students may declare a departmental major, an interdepartmental major, or an individualized major. Students may declare more than one major.

Departmental Major

Specific course requirements are listed in each departmental description. Declaring a departmental major requires approval of the department.

The following departmental majors and concentrations, except those indicated as B.M. or B.M.E., lead to the B.A. degree:

Accounting
Applied Music
Art; Art Education; Communication Design
Biochemistry
Biology; Biology Teaching
Business Administration: Concentrations in finance, international business, management, marketing, sports management
Chemistry; Chemistry Teaching
Church Music
Communication Arts (B.A.): Concentrations in electronic media, print media, public relations, individualized; Journalism Teaching
Communication Studies: Concentrations in speech communication and theatre
Community Sociology
Computer Information Systems
Computer Science
Economics; Economics Teaching
Elementary Education
Engineering Science
English; English Teaching; Writing
Fitness Management
French; French Studies; French Teaching
German; German Studies; German Teaching
History; American or World History Teaching
International Relations
Mathematics; Mathematics Teaching
Medical Technology
Music Education (B.M.E.)
Music Performance (B.M.)
Music Therapy (B.M./M.T.)
Music Therapy/Education (B.M.E.)
Nursing
Philosophy
Physical Education
Physics; Physics Teaching
Political Science; American Government Teaching
Psychology; Psychology Teaching
Religion: Concentrations in camping ministry, preseminary, urban ministry, youth and family ministry
Social Work
Sociology Teaching
Spanish; Spanish Teaching

Interdepartmental Major

Interdepartmental majors combine course work in a maximum of three departments. Such majors usually consist of 13 to 15 course credits, with a maximum of 20. No more than 11 course credits may be from one department. Students completing interdepartmental majors must fulfill the Wartburg Plan of Essential Education and take at least nine course credits at the 300 or 400 level.

Students must obtain approval of their interdepartmental major title and course requirements before the end of the first term of the third year. The Educational Policies Committee and a committee consisting of one faculty member from each department involved in the major approve the title and course requirements. The academic adviser approves other components of the program, such as electives. Information is available from the Registrar. Requests for an interdepartmental major are made through the Dean of the Faculty.

Individualized Major

The individualized major is designed by a student in consultation with the academic adviser. This major represents a coherent grouping of courses pertinent to the student's educational goals. Individualized majors must be significantly different (at least four course credits) from majors currently available at Wartburg College.

An individualized program of study must include:

1. Completion of graduation requirements as described on page 35 of this catalog.
2. Completion of a student-designed individualized major with a minimum of 13 and a maximum of 20 courses.
3. Completion of nine of the total 36 course credits at the 300 and 400 level.

Request for the individualized major must be submitted to the Dean of the Faculty and approved by the Educational Policies Committee no later than the end of the first term of the third year.

Information on the individualized major may be obtained from the Registrar's Office or the Wartburg Web site.

Minors

Minors are available in most disciplines. In addition, Wartburg offers six interdisciplinary minors: environmental studies, intercultural studies, leadership certification, social entrepreneurship, women's studies, and worship studies.

Registration

Students are expected to register for the full academic year during the official registration dates announced by the Registrar. Students prepare class schedules in consultation with an academic adviser and complete registration on the dates relative to the student classifications. Final course rosters are determined by class seniority and need.

Arranged Study

Students who need to take a required course not offered before the student's projected graduation date may request to enroll in the course as an arranged study. The request includes completion of the appropriate form, available in the Registrar's Office or the Wartburg College Web site, which serves as the contract between the students and the faculty sponsor. A fee is charged.

Independent Study

Students who wish to enroll in an individualized course may request an independent study under the course number 450 for each discipline. The request includes the completion of the appropriate form, available in the Registrar's Office or the Wartburg College Web site, which serves as the course proposal and the contract between the student and the faculty sponsor. A fee is charged.

Auditing Courses

Full-time students who wish to attend a class without receiving college credit may audit a class with the approval of the instructor and the Registrar. The student must register for the course as an audit and attend classes regularly. There is no charge for full-time students to audit a class.

Part-time students and non-degree-seeking students who wish to attend a class without receiving college credit may audit a class with the consent of the instructor and the Registrar. Registration for non-degree-seeking students occurs one month prior to the start date of each term, if space is available in the class. An audit fee is charged to part-time and non-degree-seeking students. Applications for auditing a course are available in the Registrar's Office.

Withdraw

To withdraw from a course, students must complete the appropriate card, which is available in the Registrar's Office. During the second through the ninth week of a term, students may withdraw from a course with a non-punitive grade of W. Students who stop attending a course without officially withdrawing will receive a punitive grade of F. Adjustments to a student's course load during a term may impact the student's tuition charge, financial aid, and athletic eligibility.

To withdraw or take a leave of absence from the college during a term or at the end of the term, students must obtain the appropriate form from the Enrollment Management Office and complete the withdrawal process by submitting the form and meeting with the Vice President for Enrollment Management. Cancellation of registration and determination of tuition and fees are based upon the date the student completes the withdrawal process. If students are unable to initiate the withdrawal due to medical reasons or other extenuating circumstances, the Vice President for Enrollment Management will make appropriate arrangements.

A leave of absence is available to students who must withdraw from the college for health or personal reasons and who plan to return to Wartburg at a later date. Authorizations for a leave of

CLEP

Students, including entering first-year students, may take examinations of the College-Level Examination Program (CLEP) of the College Entrance Examination Board and receive college credit by achieving Wartburg's minimum quality score. In most academic areas where no CLEP examination is available, students may take departmentally administered Challenge Examinations.

Experiential Learning Credit

Wartburg follows the American Council on Education recommendations in granting credit for learning experiences from noncollegiate institutions. Course credit may be given to qualified students for this experiential learning.

International Baccalaureate Credit

Wartburg College recognizes International Baccalaureate (IB) work and will grant credit on a course-by-course basis for examination scores of 5 or better on the Higher Level courses only. The granting of credit for IB is equivalent to the Advanced Placement.

Outside Credit

Students need prior permission from the Registrar to be assured that courses taken at another accredited institution will be accepted for course credit toward a degree program at Wartburg.

Community College

Wartburg College welcomes graduates of community colleges and will work with community college students to plan for a successful transfer to Wartburg after completion of the A.A or A.S. degree. While attending a two-year college, students are welcome to work with a Wartburg faculty adviser to plan completion of the baccalaureate degree. Students who complete an A.A. or an A.S. degree will transfer to Wartburg as a third-year student. Students who have not completed the A.A. degree are also welcome at Wartburg. The Registrar's Office will assist with the evaluation of courses for the purposes of transfer to the Wartburg College academic program. Contact the Admissions Office for assistance if you are a community college student or graduate.

Grades

Definitions

Distinguished performance is denoted by the grade A, superior work by B, satisfactory achievement by C, minimal achievement by D, unsatisfactory achievement by F. Pluses and minuses are awarded.

P/D/F Designated in course descriptions. Some courses are graded only with P/D/F.

P (pass) gives credit in a course offered P/D/F and indicates that the student earned a grade of C- or higher. Any grade below a C- is calculated into the cumulative grade point average.

P/D/F Option Students have the option of taking one elective course on a P/D/F basis for each class year at Wartburg, up to a maximum of four. Students may use one P/D/F option per term only for elective courses toward graduation, in addition to courses

offered only on a P/D/F basis. The P/D/F option is not used for standardly graded courses that fulfill major, minor, concentration, teaching endorsement, or Wartburg Plan requirements. Students may change a course to or from the P/D/F option through the first half of the term.

P O (pass option) gives credit in a course elected P/D/F and indicates that the student earned a grade of C- or higher.

D O means a student has received a grade of D in a P/D/F option course. A grade of D O is calculated into the cumulative grade point average.

F O means a student has received a failing grade in a P/D/F option course. A grade of F O is calculated into the grade point average.

I (incomplete) means students have postponed required work with prior consent of instructors and for reasons beyond their control: physical or emotional conditions precluding timely progress in or completion of courses as confirmed by appropriate professionals, or catastrophic exigency affecting students' families. Incomplete work must be completed by the fourth week of the next four-month term or grades of I become F. Grades of I may also be issued until field experience, internship, laboratory research, or study abroad work is completed and evaluated.

W (withdraw) indicates students formally withdrew from a course. This must be done by the end of the ninth week of Fall or Winter Term classes or by the end of the eighth day of May Term classes.

NR (not reported) means instructor did not report grade.

AU (audit) indicates that a student elected to attend a course without receiving degree credit.

Grade Point Average

Grade point average is determined by dividing the total number of earned quality points by the total number of course credits in which an A, B, C, D, or F was earned. Quality points for grades are:

A	4.000	B	3.000	C	2.000	D	1.000
A-	3.700	B-	2.700	C-	1.700	D-	0.700
B+	3.300	C+	2.300	D+	1.300	F	0

No quality points are awarded for the grades P, PO, I, or W, and courses with those grades are not considered when determining grade point average. When a course is repeated at Wartburg, only the last grade is used to calculate grade point average. Grades earned at other institutions are entered on students' records, but transfer course credits and grade point averages are not included when computing grade point average at Wartburg.

Academic Records

In the maintenance of student records and permission to access these records or release information contained in these records, Wartburg College complies with federal and state laws. The Family Educational Rights and Privacy Act and the regulations required by this act may be reviewed in the Registrar's Office.

Academic Standing and Satisfactory Academic Progress

Students are considered to be making satisfactory academic progress if their cumulative grade point average exceeds the suspension standards for their position in the following table:

Course Credits completed	Suspension GPA	Probation GPA
0.25-4.75	0.000-1.000	1.001-1.500
5.00-9.75	0.000-1.400	1.401-1.600
10.00-13.75	0.000-1.500	1.501-1.750
14.00-18.75	0.000-1.650	1.651-1.850
19.00-22.75	0.000-1.800	1.801-1.900
23.00-27.75	0.000-1.900	1.901-1.999
28.00	0.000-1.999	

Students are subject to probation or suspension at the end of any term in which their cumulative GPA falls below the standards in the table. Regardless of the students' cumulative grade point averages, if the grade point average for any given term is below 1.500, students are placed on probation. Probationary status is automatically removed at the end of any term in which the cumulative GPA exceeds the probation standards in the table. In addition, students are subject to suspension when they have been on probation for one term and have not raised their grade point average above the probation level.

The Assistant Dean for Academic Affairs reviews the academic standing of all students at the end of Fall Term and at the end of Winter/May Terms (considered jointly). Notification of academic probation and suspension appears on the grade report and is sent for informational purposes to academic advisers and the Dean of Students. Academic probation constitutes serious warning to students that their retention at the college is in jeopardy. During a period of probation, students are encouraged to contact their advisers, visit the Pathways Center, and/or meet with the Dean of Students to develop strategies for improving their academic performance.

Suspended students are ineligible to enroll as degree-seeking students for the immediately succeeding term (Fall or Winter/May). If and when they return to regular status following a period of suspension, students remain under the terms and conditions of the catalog in effect at the time they matriculated (subject to statutory limitations for earning a baccalaureate degree).

Suspended students wishing to seek readmission following the period of suspension must do so by writing to the Dean of the Faculty, stating specific reasons for seeking readmission and providing evidence of ability to succeed in college-level studies. Students readmitted following a period of suspension are ineligible to participate in organized co-curricular activities (e.g., intercollegiate athletics, student publications, student government), to work in residence hall or Student Life programs (e.g., in residence halls or as Student Orientation Staff), or to join in any organized student activities related to academic programs (e.g., band, choir, speech team, etc.) until they raise their cumulative GPA above the probation level.

Students who are readmitted after having served a suspension are automatically dismissed if they are suspended a second time.

Appeal Procedures

Students may appeal suspension if they believe extenuating circumstances have contributed to poor academic performance. Appeal letters must be addressed to the Dean of the Faculty and received in accordance with deadlines stated in the suspension notice. Appeal letters should contain specific reasons for requesting removal of suspension status and plans for improving academic performance. The Dean of the Faculty, in consultation with the academic adviser, the Assistant Dean for Academic Affairs, and the Dean of Students, will render the final appeal decision.

If appeal is granted, notification of suspension will be removed from grade reports and transcripts, and students will be on probation. The Dean of the Faculty reserves the prerogative to grant appeals by placing enrollment conditions upon students.

Dismissals cannot be appealed, and dismissed students will not be readmitted.

Athletic Eligibility

To be eligible to compete and practice in intercollegiate athletics, student-athletes must be registered as full-time students during the term of participation. In order to be eligible for competition during May Term, student-athletes must be enrolled full-time during this time period.

Student-athletes are subject to academic standing and satisfactory progress requirements as defined by the college. Student-athletes are considered to be in good academic standing provided their GPA and course credits completed exceed the suspension standards. To be eligible for Fall Term competition, student-athletes must pass four course credits in the previous Winter/May and Summer Terms or seven course credits the previous Fall, Winter/May and Summer Terms combined. To be eligible for Winter/May Term competition, a student-athlete must pass three course credits in the previous Fall and Summer Terms or seven course credits in the previous Fall, Summer, and Winter/May Terms combined.

According to NCAA and IIAC rules, student-athletes have 10 semesters of full-time enrollment to utilize four seasons of participation. A student-athlete who practices after the first date of competition, and never competes, has completed a season of competition.

Variances

Students may petition for variances from college policy by appealing to the Vice President for Enrollment Management. The appropriate form is available in the Registrar's Office or the Wartburg College Web site.

Academic Recognition

Dean's List

A Dean's List is announced at the end of Fall and Winter/May Terms. Students receive this recognition by earning a minimum term grade point average of 3.500 in at least four course credits Fall Term or at least five course credits Winter/May Term. At least three course credits in Fall Term and four during Winter/May Term must be graded with a grade other than P or P O. Students with incompletes are not eligible for the Dean's List. Grades from MA 90 Intermediate Mathematics are not included when determining the Dean's List.

Honors

Superior students may be awarded a prize, scholarship, departmental honor, or college honor. To receive college honor, students must earn 18 course credits at Wartburg and achieve a cumulative grade point average of 3.500 - 3.699 (Cum Laude), 3.700 - 3.849 (Magna Cum Laude), 3.850 - 4.000 (Summa Cum Laude).

The Wartburg College Dean's Honor Cords are given to the senior students who have excelled academically. Students earning the top 40 grade point averages in the senior class are recognized at Commencement by these cords.

Honor Societies

Wartburg honor societies recognize academic achievement in a variety of disciplines. Campus chapters are affiliated with national collegiate honorary organizations.

ALPHA CHI promotes academic excellence and exemplary character among college and university students in all disciplines and honors those who achieve such distinction.

BETA BETA BETA improves the understanding and appreciation of biological study and extends the boundaries of human knowledge through scientific research.

DELTA MU DELTA promotes higher scholarship in training for business and recognizes and rewards business administration students who have distinguished themselves scholastically.

KAPPA DELTA PI recognizes scholarship and excellence in education.

KAPPA MU EPSILON promotes interest of mathematics among undergraduate students.

LAMBDA PI ETA recognizes scholarship and excellence in communication arts and promotes philanthropic work.

PHI ALPHA fosters high standard of training for social workers and recognizes excellence in scholarship and achievement in social work.

PHI ETA SIGMA encourages and rewards academic excellence among first-year students in institutions of higher learning.

PI GAMMA MU encourages the study of the social sciences and recognizes outstanding achievement.

PSI CHI encourages, stimulates, and maintains excellence in scholarship and advances the science of psychology.

SIGMA DELTA PI honors those who attain excellence in the study of the Spanish language and in the study of the literature and culture of the Spanish-speaking peoples.

THETA ALPHA KAPPA recognizes scholarship and excellence in theology and religious studies.
